

Another exercise

- In pairs, think for a moment, with the person next to you, about how you would code that classic children's favourite, ***99 bottles of beer***.
- In case you don't know the song, check the lyrics here <http://www.99-bottles-of-beer.net/lyrics.html>

Another exercise

- In pairs, think for a moment, with the person next to you, about how you would code that classic children's favourite, *99 bottles of beer*.
- In case you don't know the song, check the lyrics here <http://www.99-bottles-of-beer.net/lyrics.html>
- We need a class with a `main()`, an `int` and a `String` variable, a `while` loop, and an `if` test.
